# About

---

This is a modern and complete school automation software that suites to almost every school or educational institution from student admission to student leaving, from fees collection to exam results.

Not only this, you can manage classes, sections, subjects, teachers with attendance, assign to subject, school fees and also create class timetable.

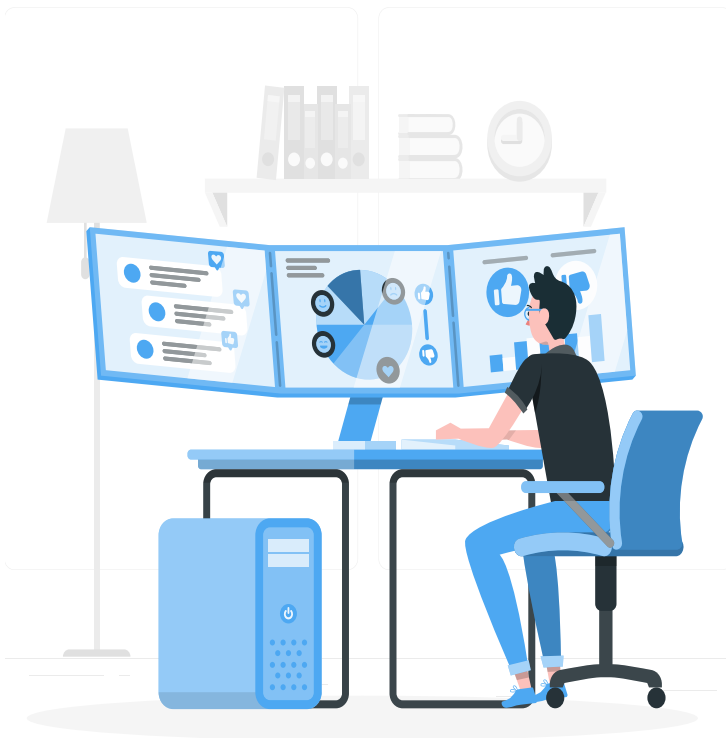

# Vision

Our vision is to lead the way in school management technology. We aim to create a future where schools and educators nationwide embrace user-friendly solutions that make administrative tasks a breeze, facilitate seamless communication, and foster dynamic learning environments.

# Mission

With a user-centric school management system that simplifies administrative duties, enhances communication, and promotes an exciting learning environment, our objective is to empower schools, educators, and families. We are committed to providing modern approaches that promote academic success and encourage lifelong learning.
